About

I am a versatile digital professional with a broad skill set, ranging from responsive frontend development to 2D and 3D art. Proficient in Blender and Photoshop, with foundational skills in Substance Painter, Premiere Pro, and AutoCAD, I effectively bridge the gap between technical coding and professional creative design.

Language

- Thai
- English

Education

2020 - 2022

High School Equivalency

Ban Tai Sub-district Non-Formal Education Center

Successfully completed secondary education while concurrently self-studying 2D & 3D Digital Art, establishing a strong technical foundation.
